**Vineyard Crew
June Update**

Every spring lifts the spirit with exploding growth . . . joy in rebirth . . colorful life . . . promising another hopful season. . . the crew stays challenged daily with new growth and ways to improve vineyard productivity as new vines in a new region try finding the optimum trellis still remains a open question.

Boring . . . this story remains unchanged in forty-eight years But the wines have reflected vineyard conditions and seasons with amazing diversity That itself carries the whole story . . . in a bottle Terroir

Thank you for being investigator, judge and jury Many of you have judiciously handed down each vintage verdict. . . some tastier than others helping all winemakers focus. . . .

Linda remembered each pressing and harvest on July 12 take a quiet minute for her with His Grace (her middle name)

*Cheers,
and crew*
